

## CIAP Resource Changes – 1 July 2026

### New and Upgraded Resources

Resource	Description
DynaMed	An evidence-based clinical decision support tool providing concise point-of-care summaries with transparent evidence grading. It helps clinicians quickly locate reliable information and was recognised as Best in KLAS for Clinical Decision Support in four of the past five years.
Isabel	A clinical reasoning tool that generates ranked differential diagnoses based on patient symptoms and context, helping clinicians identify atypical and complex conditions and reduce missed diagnoses. Integrated with DynaMed, it also identifies medications that may be contributing to symptoms.
AccessPediatrics	A paediatric education and reference resource covering infants, children and adolescents. It includes 42 unique textbooks, case studies, images, quick reference tools and self-directed learning content to support clinical practice and ongoing education.
Micromedex NeoFax and Pediatrics	A neonatal medicines resource providing practical guidance on medication dosing, preparation and monitoring, including guidance for premature and high-risk infants. It includes neonatal-specific dosing calculators and supports safe medication and infant formula use.
Martindale: The Complete Drug Reference	A comprehensive medicines reference covering Australian and international medicines, including non-TGA approved products and medicines accessed through special pathways. It also provides detailed physicochemical information to support complex medication management.
Stockley's Drug Interactions	A comprehensive resource for identifying and assessing interactions involving medicines, herbal products, food, drinks and substances of abuse, helping clinicians determine the clinical significance and need for management changes.
NEJM AI	Provides access to emerging research and applications of artificial intelligence in healthcare, including original research, case studies, datasets and protocols to support understanding of AI in clinical practice.
NEJM Catalyst	Brings together health care executives, clinical leaders, and clinicians to share innovative ideas and practical applications for enhancing the value of health care delivery. Areas of focus include patient-centered care, culture of health, analytics and outcomes, market landscape, health technology, and new models of care.
NEJM Clinician	Delivers curated summaries of clinically significant research and recommendations, highlighting key takeaways for rapid and practical application in patient care.
Global Infectious Diseases and Epidemiology Network (GIDEON)	An evidence-based platform combining outbreak surveillance, epidemiological data and clinical decision support. It enables clinicians and public health professionals to track infectious diseases, identify emerging outbreaks and access integrated diagnostic and reference tools.

ProQuest One Health & Nursing (Upgrade)	An expanded resource that replaces ProQuest Nursing & Allied Health, offering broader nursing, medical and allied health content, including biomedical databases, systematic reviews and dissertations to support evidence-based practice.
Women's Pregnancy and Breastfeeding Medicines Guide	An Australian resource providing practical guidance on medicine use during pregnancy and breastfeeding, including trimester-specific recommendations, breastfeeding advice and safer alternatives where appropriate.
Aphasiology	Aphasiology is a monthly medical journal covering the field of aphasia, covering all aspects of language impairment and disability and related disorders resulting from brain damage.
Prehospital Emergency Care	Prehospital Emergency Care publishes international research relevant to the practice, educational advancement and investigation of emergency medical services.

## Discontinued Resources and Alternatives

Discontinued Resource	Alternative	Notes
Pediatric Care Online	AccessPediatrics	A comprehensive paediatric resource with textbooks, case studies, images and self-directed learning content.
Dental Trauma Guide	ACI Dental Emergencies	NSW Health guidance on the management of common dental presentations and trauma.
AACN Advanced Critical Care	Document Delivery	Request articles from this journal and other unsubscribed titles through the NSW Health Libraries document delivery service.
Annals of Internal Medicine	Document Delivery	Request articles from this journal and other unsubscribed titles through the NSW Health Libraries document delivery service.
Annual Review of Psychology	PsychiatryOnline	Provides access to psychology and mental health literature and evidence-based resources.
Pulse+IT	NEJM Catalyst	Offers insights, case studies and commentary on healthcare innovation and system transformation.
Intensive Care Medicine	Document Delivery	Request articles from this journal and other unsubscribed titles through the NSW Health Libraries document delivery service.
STAT!Ref	AHFS Drug Information within AccessMedicine	Provides comprehensive, evidence-based drug information.
Micromedex Reprorisk	MotherSafe Service	Provides expert Australian advice on exposures during pregnancy and breastfeeding.

ProQuest Breastfeeding and Lactation	Women's Pregnancy and Breastfeeding Medicines Guide	Provides practical Australian guidance on medicine use during pregnancy and breastfeeding.
--	--	--

Document Delivery Service: NSW Health staff can request journal articles not available through CIAP subscriptions via their local NSW Health Library. This service provides access to articles from a wide range of journals to support clinical care, education and research.
